PROFILE

Third-year Computer Science student building full-stack products and AI systems end to end — from multi-agent orchestration to production web apps with real users. Currently interning across AI and full-stack development, with AWS certifications in Cloud and AI.

EXPERIENCE

AI-Assisted Full Stack Web Development Intern *Jun 2026 – Present · Hybrid*

- Building responsive, component-based frontends with React/Next.js and Tailwind CSS
- Developing RESTful APIs with Node.js (Express) and Python (FastAPI)
- Integrating AI APIs (OpenAI, Gemini) for intelligent application features
- Implementing secure authentication and deploying publicly accessible web apps

Artificial Intelligence Intern *Jul 2026 – Present · Remote*

- 8-week hands-on program across AI/ML, data science, and neural networks
- Working on real-world projects spanning NLP and computer vision

PROJECTS

SheSays — MERN Community Platform

- Safe-space blogging platform for women to share stories anonymously or openly; full auth, Cloudinary media uploads, likes/comments, deployed as a production MERN app

ATSLay — AI/NLP Resume Analyzer

- ATS resume scorer using TF-IDF, cosine similarity, and Porter stemming to surface exact missing keywords against a job description; full auth, scan history, deployed via Docker

VibeOps — Multi-Agent AI Orchestrator

- LangGraph + Claude API orchestration with shared memory across agents (SQLite + ChromaDB); retry/failure handling, full test suite (8/8 passing), CI via GitHub Actions
